

Ministry Highlight: Habitat for Humanity

Montview has a long and successful history of dedicated and compassionate mission outreach to Denver communities through Habitat for Humanity. Montview members have unselfishly given hundreds, if not thousands of person-hours to improving the housing situation for Denver's low-and moderate-income community, who would have few home ownership options except for Habitat for Humanity and Montview's contributions. Montview supports Habitat workdays each year, both physically (through volunteers) and financially, including both home repairs and new construction. The ministry is a win for both the broader Denver community and Montview in the productive work, great fellowship and fun accomplished each workday. We look forward to another year of the successful Habitat-Montview partnership. Hammers and work-belts out, Montview goes forward. Visit our table in the Commons after each service on Sunday, April 28.
